DETAILED ACTION

Allowable Subject Matter

1. Claims 1-49 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's amendments and arguments have overcome the prior art. Using an email to issue a command to manage other existing email messages, and operating said email command based upon the permissions granted to the email address sending the command, is a technique not taught within the prior art.
3. In claims 1, 23, 38, 44, and 49, a code is present within the email triggering examination of the email. As taught in the original specification, page 10, lines 6-8, a code is a particular character string or symbol which flags the message for processing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
